

Name: Andrew B. Coral
Program-Section: BSIT 3-2

Date: September 20, 2025
Course: System Integration and Architecture 1

Hi, my name is Andrew B. Coral. Born on November 30, 2004, in Batangas City, Batangas. I am currently a third-year college student at PUP-STB taking BSIT. I took BSIT because I believe in the near future, the world will be technologically driven. So, having knowledge about technology would be helpful to me and my family. I choose PUP-STB as my school because I believe that PUP would teach me the things that I need to realize and learn about technology.

Currently, I am taking System Integration and Architecture 1. I'm expecting that this course will help me learn all the architectural design when creating a system according to the needs and usefulness. I'm also expecting that this course will help me and others on how to safely and successfully integrate a system to minimize the unprecedented outcomes.
